\* The performance data quoted is historical. Past performance is no guarantee of future results. Current performance may be higher or lower than the performance data quoted. The principal value and return of an investment will fluctuate so that your shares, when redeemed, may be worth more or less than their original cost. The returns shown do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or on the redemptions of Fund shares. Performance figures for periods greater than 1 year are annualized. The total operating expenses as stated in the fee table to the Fund's prospectus dated February 1, 2022 are 2.73%, 3.33% and 2.33% for the Class A, C and I Shares, respectively. Class A shares are subject to a maximum sales charge of 5.75% of the original purchase price imposed on purchases. Redemptions of any share class made within 30 days of purchase may be assessed a redemption fee of 2.00%. For performance information current to the most recent month-end, please call 1-877-940-2526.

(a) Inception date is December 20, 2013.

(b) Inception date is October 17, 2014

(c) The MSCI World Index captures large and mid cap representation across 23 Developed Markets (DM) countries. With 1,650 constituents, the index covers approximately 85% of the free float-adjusted market capitalization in each country. Investors may not invest in the Index directly. Unlike the Fund's returns, the Index does not reflect any fees or expenses.

(d) The S&P 500 Total Return Index is an unmanaged free-float capitalization-weighted index which measures the performance of 500 large-cap common stocks actively traded in the United States. Index returns assume reinvestment of dividends. Investors may not invest in the Index directly. Unlike the Fund's returns, the Index does not reflect any fees or expenses.

## NOTES TO FINANCIAL STATEMENTS (Unaudited)

### March 31, 2022

#### 1. ORGANIZATION

The RESQ Dynamic Allocation Fund and the RESQ Strategic Income Fund (each a “Fund” and collectively the “Funds”), are each a diversified series of shares of beneficial interest of Northern Lights Fund Trust III (the “Trust”), a Delaware statutory trust organized under the laws of the state of Delaware on December 5, 2011. The Trust is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company. The investment objective of the RESQ Dynamic Allocation Fund is to seek long term capital appreciation with capital preservation as a secondary objective. The investment objective of the RESQ Strategic Income Fund is to seek income with an emphasis on total return and capital preservation as a secondary objective.

Each Fund currently offers three classes of shares: Class A, Class C and Class I shares. Class A and Class I shares of each Fund commenced operations on December 20, 2013. Class C shares of each Fund commenced operations on October 17, 2014. RESQ Dynamic Allocation Fund Class A shares are offered at net asset value plus a maximum sales charge of 5.75%. RESQ Strategic Income Fund Class A shares are offered at net asset value plus a maximum sales charge of 4.75%. Class C and Class I shares of the Funds are offered at net asset value. Each class represents an interest in the same assets of the applicable Fund and classes are identical except for differences in their distribution charges. All classes of shares have equal voting privileges except that each class has exclusive voting rights with respect to its service and/or distribution plans. Each Fund’s income, expenses (other than class specific distribution fees) and realized and unrealized gains and losses are allocated proportionately each day based upon the relative net assets of each class.

#### 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in preparation of their financial statements. These policies are in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates. The Funds are investment companies and accordingly follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification Topic 946 “Financial Services – Investment Companies.”

**Securities Valuation** – Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the primary exchange on the business day the value is being determined, or in the case of securities listed on NASDAQ at the NASDAQ Official Closing Price (“NOCP”). In the absence of a sale, such securities shall be valued at the mean between the current bid and ask prices on the day of valuation. Investments valued in currencies other than the U.S. dollar are converted to U.S. dollars using exchange rates obtained from pricing services. Short-term debt obligations having 60 days or less remaining until maturity, at time of purchase, may be valued at amortized cost. Investments in open-end investment companies are valued at net asset value.

**Valuation of Fund of Funds** – The Funds may invest in portfolios of open-end or closed-end investment companies (the “underlying funds”). Underlying open-end investment companies are valued at their respective net asset values as reported by such investment companies. The underlying funds value securities in their portfolios for which market quotations are readily available at their market values (generally the last reported sale price) and all other securities and assets at their fair value by the methods established by the boards of the underlying funds. The shares of many closed-end investment companies, after their initial public offering, frequently trade at a price per share, which is different than the net asset value per share. The difference represents a market premium or market discount of such shares. There can be no assurances that the market discount or market premium on shares of any closed-end investment company purchased by a Fund will not change.

The Funds may hold securities, such as private investments, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These securities will be valued using the “fair value” procedures approved by the Trust’s Board of Trustees (the “Board”). The Board has delegated execution of these procedures to a fair value committee composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) advisor. The committee may also enlist third party consultants such as a valuation specialist at a public accounting firm, valuation consultant or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the

execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

**Fair Valuation Process** – As noted above, the fair value committee is composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) advisor. The applicable investments are valued collectively via inputs from each of these groups. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source); (ii) securities for which, in the judgment of the advisor, the prices or values available do not represent the fair value of the instrument. Factors which may cause the advisor to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; and (iv) securities with respect to which an event that will affect the value thereof has occurred (a “significant event”) since the closing prices were established on the principal exchange on which they are traded, but prior to each Fund’s calculation of its net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid securities, such as private placements or non-traded securities are valued via inputs from the advisor based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If the advisor is unable to obtain a current bid from such independent dealers or other independent parties, the fair value committee shall determine the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase; (iii) the size and nature of the Fund’s holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

The Funds utilize various methods to measure the fair value of all of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

**Level 1** – Unadjusted quoted prices in active markets for identical assets and liabilities that the Funds have the ability to access.

**Level 2** – Observable inputs other than quoted prices included in level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

**Level 3** – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing each Fund’s own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3. The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

**NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)**  
**March 31, 2022**

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following tables summarize the inputs used as of March 31, 2022 for each Fund's investments measured at fair value:

**RESQ Dynamic Allocation Fund**

<b>Total</b>	<b>\$ 29,087,453</b>	<b>\$ -</b>	<b>\$ -</b>	<b>\$ 29,087,453</b>

The Funds did not hold any Level 2 or 3 securities during the period.

\* Please refer to the Schedule of Investments for classification by asset type.

**Security Transactions and Investment Income** – Investment security transactions are accounted for on a trade date basis. Cost is determined and gains and losses are based upon the specific identification method for both financial statement and federal income tax purposes. Dividend income is recorded on the ex-dividend date and interest income is recorded on an accrual basis. Purchase discounts and premiums on securities are accreted and amortized over the life of the respective securities using the effective interest method.

**Distributions to Shareholders** – Distributions from net investment income, if any, are declared and paid at least annually and are recorded on the ex-dividend date. The Funds will declare and pay net realized capital gains, if any, annually. The character of income and gains to be distributed is determined in accordance with federal income tax regulations, which may differ from GAAP. These “book/tax” differences are considered either temporary (i.e., deferred losses, capital loss carry forwards) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require classification.

**Federal Income Taxes** – It is each Fund's policy to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no provision for federal income tax is required. The Funds recognize the tax benefits of uncertain tax positions only where the position is “more likely than not” to be sustained assuming examination by tax authorities. Management has analyzed the Funds' tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years 2019-2021 or expected to be taken in the Funds' 2022 tax returns. Each Fund identifies its major tax jurisdictions as U.S. federal, Ohio, and foreign jurisdictions where the Fund makes significant investments. Neither Fund is aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months. The Funds recognize interest and penalties if any, related to unrecognized tax benefits as income tax expense in the Statements of Operations. During the period, the Funds did not incur any interest or penalties.

**Exchange Traded Funds** – The Funds may invest in exchange traded funds (“ETFs”). ETFs are a type of fund bought and sold on a securities exchange. An ETF trades like common stock and may be actively managed or represent a fixed portfolio of securities. The risks of owning an ETF generally reflect the risks of owning the underlying securities in which they invest, although the lack of liquidity on an ETF could result in it being more volatile. Additionally, ETFs have fees and expenses that reduce their value.

**Exchange Traded Notes** – The Funds may invest in exchange traded notes (“ETNs”). ETNs are a type of debt security that is linked to the performance of underlying securities. The risks of owning ETNs generally reflect the risks of owning the underlying securities they are designed to track. In addition, ETNs are subject to credit risk generally to the same extent as debt securities.

**March 31, 2022**

**Expenses** – Expenses of the Trust that are directly identifiable to a specific fund are charged to that fund. Expenses that are not readily identifiable to a specific fund are allocated in such a manner as deemed equitable, taking into consideration the nature and type of expense and the relative sizes of the funds in the Trust.

**Indemnification** – The Trust indemnifies its officers and Trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties and which provide general indemnities. The Funds’ maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss due to these warranties and indemnities to be remote.

**Cash and Cash Equivalents** – Cash and cash equivalents include cash and overnight investments in interest-bearing demand deposits with a financial institution with original maturities of three months or less. The Funds maintain deposits with a high quality financial institution in an amount that is in excess of federally insured limits.

**3. INVESTMENT ADVISORY AGREEMENT AND TRANSACTIONS WITH RELATED PARTIES**

RESQ Investment Partners, LLC (the “Advisor”), serves as investment advisor to the Funds. Subject to the oversight of the Board, the Advisor is responsible for the management of each Fund’s investment portfolio. Pursuant to an investment advisory agreement with the Trust, on behalf of each Fund, the Advisor directs the daily operations of each Fund and supervises the performance of administrative and professional services provided by others. As compensation for its services and the related expenses borne by the Advisor, each Fund pays the Advisor a fee, computed and accrued daily and paid monthly at an annual rate of 1.20% of each of the RESQ Dynamic Allocation Fund’s and RESQ Strategic Income Fund’s average daily net assets. For the six months ended March 31, 2022, the Advisor earned advisory fees of \$202,403 and \$187,026 for the RESQ Dynamic Allocation Fund and RESQ Strategic Income Fund, respectively.

Pursuant to a written contract (the “Waiver Agreement”), the Advisor has agreed to waive a portion of its advisory fee and has agreed to reimburse the Funds for other expenses until at least January 31, 2023 to the extent necessary so that the total operating expenses incurred by a Fund exclusive of any front-end or contingent deferred loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Advisor)) do not exceed 2.20%, 2.80% and 1.80% of the daily average net assets attributable to each Fund’s Class A, Class C and Class I shares, respectively (the “Expense Limitation”). During the six months ended March 31, 2022, the Advisor waived fees pursuant to the Waiver Agreement in the amount of \$23,372 and \$30,644 for the RESQ Dynamic Allocation Fund and the RESQ Strategic Income Fund, respectively.

If the Advisor waives any fee or reimburses any expense pursuant to the Waiver Agreement, and a Fund’s operating expenses are subsequently less than the expense limitation, the Advisor shall be entitled to reimbursement by the Fund for such waived fees or reimbursed expenses provided that such reimbursement does not cause the Fund’s expenses to exceed the expense limitation then in effect or in effect at time of waiver. If Fund operating expenses subsequently exceed the expense limitation, the reimbursements shall be suspended. The Advisor may seek reimbursement only for expenses waived or paid by it during the three years prior to such reimbursement; provided, however, that such expenses may only be reimbursed to the extent they were waived or paid after the date of the Waiver Agreement (or any similar agreement). The Board may terminate this expense reimbursement arrangement at any time upon 60 days written notice to the Advisor. As of March 31, 2022, the total amount of expense reimbursement subject to recapture for the Funds were as follows:

	Expires September 30, 2022	Expires September 30, 2023	Expires September 30, 2024
RESQ Dynamic Allocation Fund	\$ 114,746	\$ 100,399	\$ 22,408
RESQ Strategic Income Fund	\$ 128,093	\$ 111,624	\$ 47,464

**Distributor** – The distributor of the Funds is Northern Lights Distributors, LLC (the “Distributor”). The Board has adopted, on behalf of the Funds, the Trust’s Master Distribution and Shareholder Servicing Plans for Class A and Class C shares,

**RESQ FUNDS**  
**NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)**  
**March 31, 2022**

as amended (the “Plans”), pursuant to Rule 12b-1 under the 1940 Act, to pay for certain distribution activities and shareholder services related to Class A and Class C shares. Under the Plans, the Funds may each pay 0.40% per year of the average daily net assets of Class A shares and 1.00% per year of the average daily net assets of Class C shares for such distribution and shareholder service activities. For the six months ended March 31, 2022 the Funds incurred distribution fees as follows:

	Class A	Class C
RESQ Dynamic Allocation Fund	\$ 66,927	\$ 119
RESQ Strategic Income Fund	\$ 62,312	\$ 63

The Distributor acts as the Funds’ principal underwriter in a continuous public offering of the Funds’ shares. During the six months ended March 31, 2022, the Distributor did not receive any underwriting commissions for sales of RESQ Dynamic Allocation Fund’s Class A shares or RESQ Strategic Income Fund’s Class A shares.

In addition, certain affiliates of the Distributor provide services to the Funds as follows:

Ultimus Fund Solutions, LLC (“UFS”) – UFS, an affiliate of the Distributor, provides administration, fund accounting, and transfer agent services to the Fund. Pursuant to a separate servicing agreement with UFS, the Funds pay UFS customary fees for providing administration, fund accounting and transfer agency services to the Funds. Certain officers of the Trust are also officers of UFS, and are not paid any fees directly by the Funds for serving in such capacities.

Northern Lights Compliance Services, LLC (“NLCS”) - NLCS, an affiliate of UFS and the Distributor, provides a Chief Compliance Officer to the Funds, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Funds. Under the terms of such agreement, NLCS receives customary fees from the Funds. An officer of the Funds is also an officer of NLCS, and is not paid any fees directly by the Funds for serving in such capacity.

Blu Giant, LLC (“Blu Giant”) – Blu Giant, an affiliate of UFS and the Distributor, provides EDGAR conversion and filing services as well as print management services for the Funds on an ad-hoc basis. For the provision of these services, Blu Giant receives customary fees from the Funds.

**4. REDEMPTION FEES**

Each Fund may assess a short-term redemption fee of 2.00% of the total redemption amount if a shareholder sells his shares after holding them for less than 30 days. The redemption fee is paid directly to the applicable Fund. For the six months ended March 31, 2022, the RESQ Dynamic Allocation Fund and RESQ Strategic Income Fund did not assess any redemption fees.

**5. INVESTMENT TRANSACTIONS**

For the six months ended March 31, 2022, cost of purchases and proceeds from sales of portfolio securities, other than short-term investments, amounted to the following:

	Purchases	Sales
RESQ Dynamic Allocation Fund	\$ 80,144,261	\$ 79,553,548
RESQ Strategic Income Fund	\$ 29,439,795	\$ 21,272,309

**6. AGGREGATE UNREALIZED APPRECIATION AND DEPRECIATION – TAX BASIS**

The identified cost of investments in securities owned by each Fund for federal income tax purposes, and its respective gross unrealized appreciation and depreciation at March 31, 2022, were as follows:

<u>Fund</u>	<u>Tax Cost</u>	<u>Gross Unrealized Appreciation</u>	<u>Gross Unrealized Depreciation</u>	<u>Net Unrealized Appreciation (Depreciation)</u>
RESQ Dynamic Allocation Fund	\$ 32,065,100	\$ 376,769	\$ (1,122,649)	\$ (745,880)
RESQ Strategic Income Fund	31,575,164	34,361	(2,522,072)	(2,487,711)

**7. DISTRIBUTIONS TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL**

The tax character of distributions paid during the fiscal years ended September 30, 2021 and September 30, 2020 was as follows:

<u>For fiscal year ended 9/30/2021</u>	<u>Ordinary Income</u>	<u>Long-Term Capital Gains</u>	<u>Exempt Income</u>	<u>Return of Capital</u>	<u>Total</u>
RESQ Dynamic Allocation Fund	\$ -	\$ -	\$ -	\$ -	\$ -
RESQ Strategic Income Fund	33,217	-	-	368	33,585

  

<u>For fiscal year ended 9/30/2020</u>	<u>Ordinary Income</u>	<u>Long-Term Capital Gains</u>	<u>Exempt Income</u>	<u>Return of Capital</u>	<u>Total</u>
RESQ Dynamic Allocation Fund	\$ -	\$ -	\$ -	\$ 45,689	\$ 45,689
RESQ Strategic Income Fund	63,927	-	-	-	63,927

As of September 30, 2021, the components of accumulated earnings/ (deficit) on a tax basis were as follows:

	<u>Undistributed Ordinary Income</u>	<u>Undistributed Long-Term Capital Gains</u>	<u>Post October Loss and Late Year Loss</u>	<u>Capital Loss Carry Forwards</u>	<u>Other Book/Tax Differences</u>	<u>Unrealized Appreciation/ (Depreciation)</u>	<u>Total Accumulated Earnings/(Deficits)</u>
RESQ Dynamic Allocation Fund	\$ -	\$ -	\$ (457,540)	\$ (415,668)	\$ -	\$ (1,129,999)	\$ (2,003,207)
RESQ Strategic Income Fund	-	-	(619,100)	(4,131,509)	-	(363,413)	(5,114,022)

The difference between book basis and tax basis accumulated net realized loss and unrealized appreciation/(depreciation) from investments is primarily attributable to the tax deferral of losses on wash sales and adjustments for grantor trusts.

Late year losses incurred after December 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. Funds incurred and elected to defer such capital losses as follows:

	<u>Late Year Losses</u>
RESQ Dynamic Allocation Fund	\$ 457,540
RESQ Strategic Income Fund	193,347

**RESQ FUNDS**  
**NOTES TO FINANCIAL STATEMENTS (Unaudited) (Continued)**  
**March 31, 2022**

Capital losses incurred after October 31 within the fiscal year are deemed to arise on the first business day of the following fiscal year for tax purposes. The Funds incurred and elected to defer such capital losses of as follows:

	<b>Post October Losses</b>
RESQ Dynamic Allocation Fund	\$ -
RESQ Strategic Income Fund	425,753

At September 30, 2021, the Funds had capital loss carry forwards for federal income tax purposes available to offset future capital gains as follows:

	<b>Non-Expiring Short-Term</b>	<b>Non-Expiring Long-Term</b>	<b>Total</b>	<b>CLCF Utilized</b>
RESQ Dynamic Allocation Fund	\$ 85,728	\$ 329,940	\$ 415,668	\$ 2,935,706
RESQ Strategic Income Fund	4,131,509	-	4,131,509	185,613

Permanent book and tax differences, primarily attributable to the reclass of net operating losses and return of capital distributions, resulted in reclassifications for the fiscal year ended September 30, 2021 as follows:

	<b>Paid In Capital</b>	<b>Accumulated Earnings (Losses)</b>
RESQ Dynamic Allocation Fund	\$ (244,931)	\$ 244,931
RESQ Strategic Income Fund	(193,087)	193,087

**8. UNDERLYING INVESTMENT IN OTHER INVESTMENT COMPANIES**

The RESQ Dynamic Allocation Fund (“Dynamic Allocation Fund”) currently invests a portion of its assets in the First American Government Obligations Fund (“First American Fund”). The Dynamic Allocation Fund may redeem its investments from the First American Fund at any time if the Advisor determines that it is in the best interest of the Fund and its shareholders to do so. The performance of the Dynamic Allocation Fund will be directly affected by the performance of the First American Fund. The financial statements of the First American Fund, including the schedule of investments, can be found at the Securities and Exchange Commission’s (“SEC”) website [www.sec.gov](http://www.sec.gov) and should be read in conjunction with the Dynamic Allocation Fund’s financial statements. As of March 31, 2022, the percentage of the net assets invested in the First American Fund was 26.0%.

**9. CONTROL OWNERSHIP**

The beneficial ownership, either directly or indirectly, of more than 25% of the voting securities of a Fund creates presumption of control of the Fund, under Section 2(a)(9) of the 1940 Act. As of March 31, 2022, the shareholders listed below held more than 25% of a Fund and may be deemed to control that Fund.

<b>Shareholder</b>	<b>Fund</b>	<b>Percent</b>
Charles Schwab & Co.	RESQ Dynamic Allocation Fund	56.67%
NFS LLC	RESQ Dynamic Allocation Fund	43.22%
Charles Schwab & Co.	RESQ Strategic Income Fund	55.14%
NFS LLC	RESQ Strategic Income Fund	44.77%

**10. SUBSEQUENT EVENTS**

Subsequent events after the date of the Statements of Assets and Liabilities have been evaluated through the date the financial statements were issued. Management has determined that no events or transactions occurred requiring adjustment or disclosure in the financial statements.

## EXPENSE EXAMPLES (Unaudited)

### March 31, 2022

As a shareholder of a Fund, you incur two types of costs: (1) transaction costs, including sales charges (loads) on purchases and redemption fees; and (2) ongoing costs, including management fees; distribution and/or service (12b-1) fees, and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Funds and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period from October 1, 2021 through March 31, 2022.

#### Actual Expenses

The “Actual” columns in the tables below provide information about actual account values and actual expenses. You may use the information below, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the table under the heading entitled “Expenses Paid During Period” to estimate the expenses you paid on your account during this period.

#### Hypothetical Example for Comparison Purposes

The “Hypothetical” columns in the tables below provide information about hypothetical account values and hypothetical expenses based on each Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balances or expenses you paid for the period. You may use this information to compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the tables are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as sales charges (loads). Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

## SUPPLEMENTAL INFORMATION (Unaudited)

### March 31, 2022

#### **Renewal of Advisory Agreement – RESQ Dynamic Allocation Fund and RESQ Strategic Income Fund\***

In connection with a meeting held on November 30 - December 1, 2021, the Board, including a majority of the Trustees who are not “interested persons,” as that term is defined in the Investment Company Act of 1940, as amended, discussed the renewal of the investment advisory agreement (the “Advisory Agreement”) between the ResQ Investment Partners, LLC (“ResQ”) and the Trust, with respect to the RESQ Dynamic Allocation Fund (“ResQ DA”) and RESQ Strategic Income Fund (“ResQ SI” and collectively, the “ResQ Funds”). In considering the renewal of the Advisory Agreement, the Board received materials specifically relating to the ResQ Funds and the Advisory Agreement.

The Board relied upon the advice of independent legal counsel and its own business judgment in determining the material factors to be considered in evaluating the Advisory Agreement and the weight to be given to each such factor. The Board’s conclusions were based on an evaluation of all of the information provided and were not the result of any one factor. Moreover, each Trustee may have afforded different weight to the various factors in reaching conclusions with respect to the Advisory Agreement.

*Nature, Extent & Quality of Services.* The Board noted that ResQ was founded in 2013 and had approximately \$70 million in assets under management. The Board remarked that ResQ’s key investment personnel responsible for the ResQ Funds had several years of financial industry experience. The Board observed that ResQ made investment decisions based primarily on mathematical algorithms based on price data. The Board acknowledged that ResQ relied on its research and modeling process for risk management and contracted with multiple signal providers to confirm market trends and sector rotation. The Board recognized that ResQ monitored compliance with each ResQ Fund’s investment limitations using a checklist system from pre-trade to post-trade operations and built those limitations into the respective model’s algorithm to ensure each ResQ Fund remained within the applicable model’s parameters. The Board discussed that ResQ’s risk committee performed daily oversight of each ResQ Fund’s algorithms and trading. The Board noted ResQ monitored each trade for best execution and price and reviewed its broker dealers annually. The Board discussed that ResQ’s active management style based on mathematical algorithms took the emotion out of trading and had benefitted capital preservation. The Board noted that ResQ engaged a third-party consultant for cybersecurity services and that ResQ’s CCO regularly met with its consultant to discuss areas of concern. The Board acknowledged that ResQ had reported no material compliance issues since the advisory agreement was last renewed. The Board concluded that it expected ResQ to continue providing satisfactory service to each ResQ Fund and its respective shareholders.

#### *Performance.*

*ResQ DA*—The Board noted that ResQ DA earned a 1-star Morningstar rating and underperformed its peer group, Morningstar category, and the MSCI World Index across all periods. The Board recalled ResQ’s explanation that the vaccine rollout in the US allowed the domestic economy to recover more quickly than the international economy, and ResQ DA’s exposure to international markets had contributed to ResQ DA’s underperformance relative to its peers. The Board also noted ResQ DA held positions in asset classes that had historically performed well during inflationary cycles, and that ResQ had recently adjusted its model to decrease ResQ DA’s susceptibility to V-shape market corrections. The Board agreed to continue to monitor performance.

*ResQ SI*—The Board noted that ResQ SI earned a 1-star Morningstar rating. The Board recognized that ResQ SI underperformed its peer group, Morningstar category, and the Bloomberg US Aggregate Bond Total Return Index across all periods. The Board recalled ResQ’s position that ResQ SI belonged in the nontraditional bond category, and that ResQ’s request to change ResQ SI’s category was currently under review by Morningstar. The Board acknowledged that ResQ’s lack of equity exposure

**RESQ FUNDS**  
**SUPPLEMENTAL INFORMATION (Unaudited)**  
**March 31, 2022**

helped it avoid the market volatility related to the pandemic and had since been operating in a challenging interest rate environment. The Board agreed to continue to monitor performance.

*Fees and Expenses.*

*ResQ DA*—The Board acknowledged that ResQ had agreed to several fee reductions over the life of ResQ DA, with a current annual advisory fee of 1.20% and noted that although the 1.20% advisory fee was higher than the peer group and Morningstar category averages and medians, it was below the highs of each. The Board discussed that ResQ DA's 1.80% net expense ratio was lower than the high of its Morningstar category, and that ResQ had fee waivers in place that benefited shareholders. The Board considered ResQ's explanation that the investment strategy of ResQ DA required active management. The Board concluded that ResQ's advisory fee for ResQ DA was not unreasonable.

*ResQ SI*—The Board acknowledged that ResQ had agreed to several fee reductions over the life of ResQ SI, with a current annual advisory fee of 1.20%. The Board noted that the 1.20% advisory fee was higher than its peer group and Morningstar category medians and averages, but lower than the category high. The Board discussed ResQ SI's 1.80% net expense ratio and acknowledged it was the Morningstar category high. The Board noted that ResQ SI was smaller than most funds in its peer group and that ResQ had fee waivers in place that benefited shareholders. The Board concluded that ResQ's advisory fee for ResQ SI was not unreasonable.

*Economies of Scale.* The Board discussed the size of the ResQ Funds and their prospects for growth, concluding neither ResQ Fund had achieved meaningful economies that would necessitate the establishment of breakpoints. The Board noted ResQ was willing to discuss the implementation of breakpoints as the assets of the ResQ Funds grew and ResQ achieved material economies of scale related to their operations. The Board agreed to monitor and revisit the issue at the appropriate time.

*Profitability.* The Board reviewed ResQ's profitability analysis in connection with its management of each ResQ Fund and noted that ResQ was managing each of the ResQ Funds at a loss. The Board concluded, therefore, that excessive profitability was not an issue for ResQ.

*Conclusion.* Having requested and reviewed such information from ResQ as the Board believed to be reasonably necessary to evaluate the terms of the Advisory Agreement, and as assisted by the advice of independent counsel, the Board concluded that the advisory fee for each of the ResQ Funds was not unreasonable, and renewal of the Advisory Agreement was in the best interests of each ResQ Fund and its shareholders.

\*Due to timing of the contract renewal schedule, these deliberations may or may not relate to the current performance results of the ResQ Funds.
